TUTORIAL
SpringerLink平台使用指南

Welcome to SpringerLink

link.springer.com平台

提供1500万+种全面丰富的资源，涵盖科学、技术和医学以及人文和社会科学领域的期刊、图书、会议论文集、参考工具书和实验室指南、视频等。

近期我们对网站进行了改版升级，以期为广大用户提供更好的使用体验。一站式即可浏览Springer Nature其他所有期刊和图书品牌的研究内容，包含Springer, BMC, Nature Portfolio, Palgrave Macmillan等。

The screenshot shows the Springer Link homepage with the following elements and annotations:

- Top Right:** "Log in" button annotated with "登录 (Sign-in)".
- Navigation:** "Find a journal", "Publish with us", "Track your research", and a search bar.
- Search Bar:** "Search 15 million articles, journals, books and chapters" with a search icon. An annotation "响应式搜索功能" (Responsive search function) points to the search bar.
- Statistics:** "200 million monthly downloads", "24 million monthly readers", and "3 million authors submit annually".
- Home for all research:** A large orange-bordered box highlights this section. An annotation "探索施普林格·自然对OA的支持" (Explore Springer Nature's support for OA) points to it.
- Discover open access:** A card with an image of people working together.
- Publish your research:** A card with an image of a person looking at a screen. An annotation "在施普林格·自然出版您的成果" (Publish your work in Springer Nature) points to it.
- Track your research:** A card with an image of hands typing on a laptop. An annotation "追踪您的出版进程" (Track your publication progress) points to it.
- Featured articles and journals:** A card with a book icon. An annotation "精选期刊与论文" (Selected journals and articles) points to it.
- Browse by subject:** A card with a network icon.
- About SpringerLink:** A card with an information icon. An annotation "按主题浏览" (Browse by subject) points to it.

获得平台授权的机构用户登录方法

根据用户所在的不同空间位置，SpringerLink平台的登录方法可以划分成以下两大类：

1) 在校或者到馆登录

学校和图书馆的IP范围已得到平台授权，用户通过台式电脑、笔记本电脑或者IPAD、手机等各种移动终端连接到学校或者图书馆的网络，即可自动获得平台访问权限。

直接输入网址即可登录<https://link.springer.com>。

2) 远程登录

远程登录方法一：VPN代理登录

用户在台式电脑、笔记本电脑或者IPAD、手机等各种移动终端上，通过VPN连接到学校或者图书馆的内部网络环境，即可自动获得平台访问权限。

直接输入网址即可登录<https://link.springer.com>。

远程登录方法二：CARSI (教育网) 远程认证登录 (教工号、学号认证登录)

访问图书馆SpringerLink数据库主页，点击CARSI远程登录链接，页面将自动跳转至大学统一身份认证系统页面，输入本人账号和密码登录，即可使用SpringerLink平台资源。

登录后，想知道自己所在的机构是否已获得SpringerLink平台的授权访问？

您可在主页底部通过查看所在机构获悉是否拥有访问权限

(9) **Abstract**

Kawasaki disease (KD), an enigmatic medium vessel vasculitis, presents as an acute febrile illness predominantly affecting young children. KD appears to be a hyper-inflammatory response elicited by environmental or infectious agents (including respiratory viruses) in genetically predisposed individuals. Numerous reports from the current era of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) pandemic have described the occurrence of KD/KD-like illness in close temporal proximity to SARS-CoV-2 infection or exposure. Notably, KD has been reported in association with H₁N₁-pdm09 virus that caused the previous pandemic a decade ago. Non-H₁N₁ influenza infections as well as influenza vaccination have also been reported to trigger KD. Herein, we report a case of H₁N₁-pdm09 influenza who developed KD. We review the published literature on influenza infection or vaccination triggering KD. This may help in a better understanding of the KD/KD-like illness associated with SARS-CoV-2. Besides, we also evaluate the safety of aspirin in influenza-triggered KD as aspirin administration in children with influenza is associated with the risk of development of Reye syndrome.

(10) **Introduction**

Kawasaki disease (KD) is an acute febrile vasculitic disorder of childhood predominantly affecting medium size arteries with a predilection for coronary arteries. KD is now the leading cause of acquired heart disease in children worldwide [1]. The illness was first reported by Dr. Tomisaku Kawasaki, a Japanese pediatrician, in 1967 when he reported a series of 50 patients [2]. Classic or 'complete' KD clinically presents with fever for at least 5 days with four of the following clinical manifestations: edema of hands and feet in the acute stage and/or subacute periungual skin peeling of fingers and toes, polymorphous

(7) **Overview** (16) **For authors**

The official journal of the Japanese Breast Cancer Society, *Breast Cancer* publishes articles that contribute to progress in the field, in basic or translational research and also in clinical research. It develops a new focus and new perspectives for all who are concerned with breast cancer.

Breast Cancer presents original articles describing clinical, epidemiological studies and laboratory investigations regarding breast cancer and related diseases. It features editorials, review articles, original articles, case reports, and short papers. The journal provides the best of up-to-date information on breast cancer, presenting readers with high-impact, original work focusing on pivotal issues.

Perioperative Preparation of NOSES (3)

Xishan Wang, Yinggang Chen, Lei Yu & Rui Huang (4)

Chapter | First Online: 29 May 2021 (5)

516 Accesses (6)

Abstract (7)

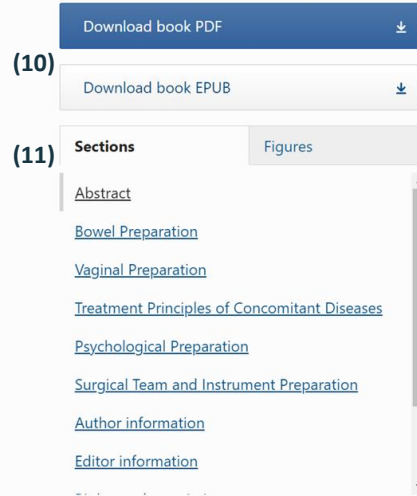

Preoperative preparation, especially bowel preparation, is a routine procedure before colorectal examinations and surgeries. Bowel preparation aims to clean the bowel and facilitate surgeries. With the popularization of Enhanced Recovery After Surgery (ERAS), the contents of preoperative preparation are constantly adjusted and improved. However, due to the particularity in the surgical procedures of NOSES, preoperative preparation is still vitally important. It involves many aspects including bowel preparation, vaginal preparation for females, and psychological preparation for patients. The most satisfactory surgical effects cannot be achieved without a comprehensive preoperative preparation.
